Shibui - Conceptual Lamp -  
*English version*

# SHIBUI

- **Shibui is a Japanese aesthetic that combines simplicity and complexity.**
- **What makes this lamp special?**
- It is unique but can be reproduced in different colors. This lamp can be custom-made. However, each similar lamp will remain one of a kind, as it will be entirely handmade, and the fusion of metal is a magic that allows for unique textures.
- Several modifications are possible: floor lamp, pendant, wall sconce, etc. It is simple, elegant, and fits into interiors of different styles. At the same time, it has its own personality and artistic characteristics, reflecting values of uniqueness, freedom, and "art that is useful."
- An affordable price for a high-end handcrafted art object.

**Worldwide delivery is available** (rates and delivery times depend on postal procedures).

# Artist's Biography

**Tatiana PermiNova**, an accomplished artist in the art of stained glass, creates exquisite lamps by combining stained glass with natural materials such as sea glass, shells, and stones.

With her training in a stained glass workshop between 2013 and 2014, she quickly developed her own distinctive style. Inspired by the cultural heritage and natural beauty of France, Tatiana creates unique and evocative designs by exploring inspiration, reflection, colors, and all the elements around her.

Her lamps have been featured in galleries and events in Paris, and her creations have found their place in homes around the world.
